

## Press Release

### Personal Project Exhibition

May 29th saw the culmination of all the hard work put in by Year 10 MYP students with their Personal Projects Exhibition. Once again, we saw an amazing array of varying ideas that have been generated almost nine months of work. Projects ranged from educational resources, computer games and applications, Neurobiological projects, startups, online shops, travel guides, tours, photo albums, and many more

34 MYP students presented their diverse projects to fellow students, parents, staff, and other guests virtually, using Google meets. The Personal Project Exhibition was well attended.

The personal project is a yearlong project in which students follow their interests, use their talents, and apply the skills they learned in the IB Middle Years Programme (MYP). Project topics may be creative or research-based and, ideally, they should reflect a student's personal interest.

The students gain valuable experience while developing their personal projects and becoming IB learners.
