

Press release

Georgian Program Primary School Assembly

At the end of the distance learning program, an assembly was conducted for the Georgian Program primary school students. To reflect on learned units and make presentations is not an unfamiliar task for the students, but to hold all activities in the virtual mode required to consider every single technical detail. The high motivation of teachers and students and their hard work made the event very successful. Different groups presented various interesting themes.

Grade 1a students introduced the project “My favorite place at the European School”, grade 2b students created an emblem and visualized their group traits in symbols.

Developing global citizens is part of the school mission and the curriculum is designed in a way to promote this competence among students. Following units and projects were presented at the assembly:

Social project of the 3rd graders “Communication”. Within the unit, students together with school#203 students having hearing impairment learned different forms of communication and created a short movie dubbed later by students from school #203 with the sign language.

Students from grade 2 demonstrated the connection between local and global issues and discussed the environmental topic related to recycling.

Importance of good health, a healthy lifestyle was a presentation topic of fourth graders, who created videos about their own experience under the supervision of the teacher Asmat Akhvlediani.

The 5th-grade students of Manana Zhamurashvili presented a topic” Let’s learn about the environment”.

Melina Savidu-the student from 3rd grade developed a technological project with the help of a supervisor Maia Jokhadze.

The students and teachers were awarded certificates of achievement for completing the online learning program successfully.
