

REGULATIONS TO BE CONSIDERED BY A PARENT/LEGAL REPRESENTATIVE FOR THE PREVENTION OF NOVEL CORONAVIRUS (SARS-COV-2) INFECTION (COVID-19) DURING THE EDUCATIONAL PROCESS IN THE EUROPEAN KINDERGARTEN

- Unauthorized persons (including parents/legal representatives) shall not be allowed to enter the kindergarten building. Admission of children shall be done by a kindergarten staff member;
- Temperature screening shall be performed at the entrance to the kindergarten to monitor the health of both staff and children and their parents/legal representatives by measuring the temperature;
- An appropriate isolation area shall be provided at the entrance of the European School to re-check the high temperature observed during the temperature screening
- In case of fever during temperature screening – when temperature is 37°C or more than 37°C, the person is subjected to a temperature check with a mercury thermometer at intervals of 15 minutes in a special designated isolation area. The mercury thermometer should be treated with a disinfectant solution after each use;
- A child with respiratory symptoms or fever during the learning process shall be temporarily transferred to the isolation room before arrival of a parent/legal representative. If the parent/legal representative does not show up within a reasonable time, the kindergarten shall be required to contact 112 for referral for appropriate medical care.

- If, after re-check, the temperature is 37°C or more than 37° C:
 - The child shall be placed in a pre-prepared isolation room and a parent/legal guardian who is responsible for taking the child from the kindergarten on time shall be immediately contacted;
 - If a parent/legal guardian does not show up at kindergarten within a reasonable time, the kindergarten shall contact 112 for referral for appropriate medical care of the child;
- Children with symptoms characteristic of respiratory infection (cough, sneezing, wheezing, shortness of breath, fatigue, etc.) shall not be allowed in the kindergarten building;
- Electronic means of communication (e.g. short text message or video call, posters) shall be used to strengthen communication strategies and encourage dialogue with the kindergarten;
- The kindergarten shall adhere to the schedule at the time of admission and release of the child, however, in case of any violation of the schedule for any reason, the parent / legal representative shall notify the group leader by phone at least 10 minutes in advance so that there is enough time to prepare the child to go home;
- It shall be forbidden to bring toys from home;
- The child shall be advised to bring to the kindergarten a full, clean water bottle, labeled with name. It is recommended to wash the water bottle at least once a day or more frequently as required.
- The child should have individual boxes for pencils, scissors and other tools so that each of them can use the items individually for him/her during art/entertainment activities;
- The kindergarten shall be informed in advance whether the child is allergic to alcohol or any of the substances contained in the disinfectant liquid;
- Ensure the child's hair is tied / tightly fastened to minimize contact of the hair with the surface;
- Bed linen shall be changed once or more per week as needed. Used linens shall be collected individually in bags and handed over to the parent for washing and disinfection;

- The appropriate washing program shall be selected according to the degree of contamination and the type of linen.
In order to prevent the possible spread of COVID-19, it shall be advisable to use a washing temperature of not less than 60° C and a combination of appropriate washing powder. If this temperature regime cannot be met, washing shall be performed after decontamination with appropriate disinfectants (eg 0.5% chlorine solution).
- The linen shall be returned to the kindergarten in a sealed bag;
- If you have symptoms of fever or other respiratory illness, arrange appointment with your family doctor or fever center for your child for appropriate medical care and PCR testing;
- After any revealed case of fever and respiratory symptoms in the kindergarten, children are allowed to the kindergarten based on a doctor's certificate;
- Fully comply with regulations for the prevention of Novel Coronavirus infection (SARS-CoV-2) during the learning process developed by the European Kindergarten.
